Ví dụ: Câu hỏi: Do you prefer home-cooked food or food from restaurants?

Quá ngắn: I prefer home-cooked food.

Vừa phải:

I prefer home-cooked food because I think it's healthier and you know exactly what you're eating. I also enjoy cooking for family and friends.

Hơi dài:

I prefer home-cooked food because I think it's healthier and you know exactly what you're eating. I also enjoy cooking for family and friends. On the other hand, we shouldn't eat fast food at restaurants because it's harmful. For example, we can suffer from obesity if we eat too much fast food.

- Trong Part 1, chúng ta nên tập trung vào khả năng nói lưu loát (Fluency) vì giám khảo sẽ không đánh giá quá cao việc sử dụng ngôn ngữ phức tạp cho các chủ đề cá nhân.

Ví dụ: Is healthy eating important?
